Bulbs

**Grown for
BULBS Only**

MICHIGAN hardy, high-crowned, all young stock. Guaranteed "True to Name," and free from disease.

We never sell flowers and therefore have no flat bulbs. You can judge for yourself what it means to a growing bulb to have more than half of its foliage removed for cut flowers. P. Vos & Son have refrained from this practice for several years. In consequence we have an ever-increasing demand for forcing bulbs.

Due to the extreme dry weather prevailing generally over the United States this past season the No. 1 stock for forcing will be very scarce. Better place your requirements at once and be safe.

TRY our New Seedlings. They are exceptionally fine and very moderately priced.

We wish to call special attention to "Adeline." Somewhat like the "Prince of Wales," it matures even earlier and has a tremendously large spike with a double row of florets. It is a very good grower and sure to be in great demand in the very near future as a trade variety.

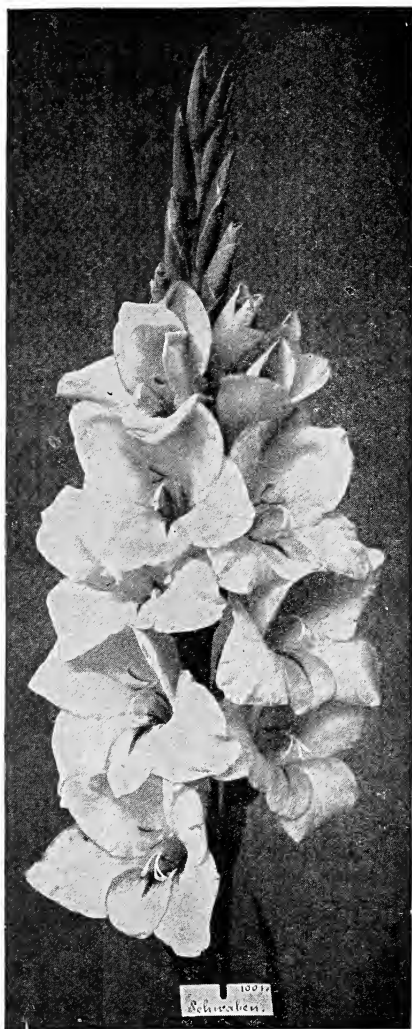

All florists visiting our trial gardens this summer have ordered this new "Adeline."
